TEC606C - Version C - Released December 18, 2015 - Copernicus Educational Products Inc.

⚠ Warning! Hazard Risks!

Please read the warnings below for important safety information regarding your product. Failure to read these warnings or to follow the instructions below could result in personal injury or damage to your product that could void your warranty.

Small Parts

In its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

Adult Supervision

This product is to be used under the supervision of an adult.

Indoor Use Only

This product is intended for indoor use only. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. The internal components are not sealed from the environment.

Power Strip Specifications

Read your power strip's electrical specifications. Only plug in devices that are approved for use with this power strip. Connect the supplied power strip directly to a wall outlet. **Do not connect to another power strip or use an extension cord.** Unplug when not in use.
Electronic Equipment

Read the electrical specifications of any electronic equipment you are using with your Copernicus products. Failure to read these specifications and follow their instructions could result in damage to your equipment or personal injury.

Cable Trip Hazard

Ensure that any cables extending across the floor to your product are properly bundled and marked to avoid tripping or falling which may lead to personal injury.

Electrical Shock

Do not install or use the electrical components of this unit during a lightning storm.

Climb Hazard

Do not climb on, hang from or suspend objects from any components of your product unless otherwise specified.

Tips for Assembly

Watch for These Helpful Symbols

This symbol denotes a 2- or 3- Person Task. For safety, please ensure that there are the suggested number of people working on steps displaying this symbol.

2-Person Task   **3-Person Task**

Watch for this symbol throughout the Assembly Guide. Wherever you see it, pay close attention. The symbol denotes a step needing extra attention to ensure it is done correctly.

The star symbol highlights an advisory note.

Before You Begin

- Lay out and identify all of the included parts.

- The hardware has been packed according to step.

- Read the assembly guide over once to familiarize yourself with them.

! Please note that in its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

As You Assemble the Unit

- Follow the steps in sequence.

- Before beginning each step, find the part(s) that you need for that step.

- Pay attention to the labels on the parts; they are there to help direct you at certain stages.

- The title of each step states what you will be doing. Review the text and the pictures as you build the unit.

WARNING

NEVER PLUG THIS OR ANY OTHER POWER STRIP INTO ANOTHER POWER STRIP.

Some of the models of this product include kits that feature the Tech Tub™. The Premium Tech Tub™ models include a power strip for charging various electronic devices. This warning applies to this component and any other electronic equipment used with this product.
IMPORTANT PRODUCT ADVISORY

DO NOT LEAVE THIS PRODUCT PLUGGED IN AND RUNNING FOR MORE THAN 72 HOURS AT ONE TIME.

**REMEMBER TO TURN OFF POWER TO POWER STRIP BEFORE UNPLUGGING FROM OUTLET.**

## Assemble Power Strip on Divider

1

Bracket hooks fit into recess.

✓

✗

**!** Do not hook brackets below second rail.

2

**!** Make sure snaps (x4) are fully connected

**5** Actual Size:

Install Power Strip

★ Use the 5th slot when positioning your power strip.

! Make sure divider tab is pushed down fully.

! Run power strip cable out of the bottom back hole.
! Pull power strip cable out of the Tech Tub™ completely. This will make the installation of the power strip easier!

8

6

You will need: (Not to Scale)

Divider
5x

Install Dividers

Use your devices to setup the spacing in between your dividers. Using a smaller storage space for your device will minimize your device's movement during transport. Don't forget to leave extra room if you have a case!

! **2 Grooves** Between Dividers for Chromebook Spacing

! Make sure divider tabs are pushed down fully.
7
Wrap Power Strip Cable

1

2
WARNING
NEVER PLUG THIS OR ANY OTHER POWER STRIP INTO ANOTHER POWER STRIP
8

You will need: (Not to Scale)

Padlock
1x

## Lock Lid with Padlock

**!** Note: Padlock will not lock without key

9

Cable Management

1 Start with the device at the front of the Tech Tub. Plug cable into power strip and first device.

! Push Cable down through top slot on cable management channel.

! Insert cable into aligned slot. Make sure it snaps into place.

! Make sure the power outlet is on the same side as cable management channel.

2 Stuff excess cables down through the space between the tub and power strip.

! To keep cables organized, use hook & loop straps secure cables around power adapter.

★

3 Continue steps 1 & 2 for the remainder of the devices.

★ Tips for Use

Device Management

Keeping track of your devices can be made even easier by creating a sign-out program.

There are many automated software solutions available that make setting up and running a device check-out program very easy.

Here is a list of some companies and their products:

ResourceMate® - www.resourcemate.com

Neuton Data Systems - www.neuton.net
IntelliScanner - www.intelliscanner.com
Use a barcode and scanner for identifying your devices.

★ **Does your school already use an automated system to keep track of books? You could use this system to also keep track of your devices!**
Carrying your Tech Tub™

Use the Handles along the sides of the Tech Tub™ for easy lifting and carrying.

Handle   Handle

Handle   Handle
