

NEW! Clear Dry-Erase Room Dividers

These mobile clear room dividers can move anywhere needed to provide a see-through barrier between students or employees and the acrylic surface is dry-erase making them even more useful.

When a divider is no longer needed simply hang graph, chart paper or fill-in-the-blank activities on the S-hooks and write on the clear acrylic surface with dry-erase markers. Hang a green paper to create a green screen backdrop for stop animation and video production.
