# Warning! Hazard Risks!

Please read the warnings below for important safety information regarding your product. Failure to read these warnings or to follow the instructions below could result in personal injury or damage to your product that could void your warranty.

Small  
Parts

In its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

Adult  
Supervision

This product is to be used under the supervision of an adult.

Indoor Use  
Only

This product is intended for indoor use only. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. The internal components are not sealed from the environment.

Power Strip  
Specifications

Read your power strip electrical specifications. Only plug in devices that are approved for use with this power strip. Connect the supplied power strip directly to a wall outlet. **Do not connect to another power strip or use an extension cord.** Unplug when not in use. **Do not leave this product plugged in for more than 72 consecutive hours.** Turn off power strip before unplugging.

Electronic  
Equipment

Read the electrical specifications of any electronic equipment you are using with your Copernicus products. Failure to read these specifications and follow their instructions could result in damage to your equipment or personal injury.

Cable Trip  
Hazard

Ensure that any cables extending across the floor to your product are properly bundled and marked to avoid tripping or falling which may lead to personal injury.

Electrical Shock

Do not install or use the electrical components of this unit during a lightning storm.

Climb Hazard

Do not climb on, hang from or suspend objects from any components of your product unless otherwise specified.

# Tips for Assembly

## Watch for These Helpful Symbols

This symbol denotes a 2 Person Task. For safety, please ensure that there are the suggested number of people working on steps displaying this symbol.

Watch for this symbol throughout the Assembly Guide. Wherever you see it, pay close attention. The symbol denotes a step needing extra attention to ensure it is done correctly.

The star symbol highlights an advisory note.

## Before You Begin

- Lay out and identify all of the included parts.
- The hardware has been packed according to step.
- Read the assembly guide over once to familiarize yourself with them.

Please note that in its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

## As You Assemble the Unit

- Follow the steps in sequence.
- Before beginning each step, find the part(s) that you need for that step.
- Pay attention to the labels on the parts; they are there to help direct you at certain stages.
- The title of each step states what you will be doing. Review the text and the pictures as you build the unit.

## STOP!

If you purchased the Dual Duty Teaching Easel you will need to install the Tub Rails on your Tech Tub<sup>2</sup> first, before proceeding with this assembly guide. Please look inside the FTT200 boxes for the Tub Rails Kit and the Tub Rails assembly guide.

If you have not purchased the FTT200, please proceed to the next page to continue setting up your Tech Tub<sup>2</sup>.

Dual Duty Teaching Easel

## STOP!

If you purchased the Tech Tub<sup>2</sup> Trolley you will need to mount your Tech Tub<sup>2</sup> onto the Trolley Frame first, before proceeding with this assembly guide. Please look inside the Trolley Frame box for the assembly guide that explains how to do this.

If you have not purchased the Tech Tub<sup>2</sup> Trolley, please proceed to the next page to continue setting up your Tech Tub<sup>2</sup>.

1

You will need: (Not to Scale)

## Install Device Positioning Rail into all shelves

This part helps keep smaller devices away from the cable management area.

If your devices are wider than 8.66in (220mm), please skip this step.

Device positioning rail can be installed or uninstalled at any time.

Press snaps into these holes in shelf

2

Actual Size:

M5 Square Nut  
x4

You will need: (Not to Scale)

## Install nuts into two shelves

Ensure nut is inserted fully into slot in shelf

3

Actual Size:

F

M5 Screw  
x4

You will need: (Not to Scale)

Shelf

(with M5 square nuts installed from previous step )

x2

## Install shelves with nuts installed into tubs

- 1 Install shelves in middle position in both tubs (aligned with holes for screws)
- 2 Insert screws (both sides) but do not fully tighten until all shelves are installed

Shelf  
x7

## Install remaining shelves

- 1 Install 4 shelves in top tub, leaving three empty slots between each shelf
- 2 Install three shelves in bottom tub, leaving two empty slots between each shelf

**Now fully tighten all 4 screws holding middle shelves in place**

# Model Specific Instructions

## Please Note:

**Steps 5-9 are for Power Strip setup (FTT1100)**

**Steps 10 & 11 are for USB Hub setup (FTT1100-USB)**

**5**

**FTT1100  
ONLY**

You will need: (Not to Scale)

Power Tray with Shield  
x1

Power Strip Mounting Plate  
x1

## Install Power Strip Mounting Bracket onto Power Tray

**1** Insert side with four pegs into keyholes

**2** Slide back until you hear a CLICK!

## Install Power Strip in Power Tray

- 1 Loop power cable under power strip as shown
- 2 Fit power cable between ribs and Power Strip Mounting Plate
- 3 Route power cable around hook and out through back of Power Tray

- 4 Fit 2 keyholes on Power Strip over 2 pegs on Power Strip Mounting Plate

- 5 Slide Power Strip back to secure it

**For power adapters  
like this proceed  
to the next step**

## Power adapter cable management

- 1 Wrap device power cable around power adapter leaving 20" of cable free

- 2 Wrap wall outlet power cable around power adapter leaving 6" of cable free

- 3 Secure cables around adapter using provided hook and loop straps

**!** Repeat above steps for all remaining power adapters

## Plug in first power adapter

- 1 Plug first power adapter into power strip
- 2 Run cable to front of tray, leaving excess cable hanging out

### Power Brick Adapter

Start at back of Power Tray  
on bottom row of outlets

OR

### Wall Plug Power Adapter (including USB Power Adapters)

Start at back of Power Tray  
on bottom row of outlets

## Plug in remaining power adapters

- ① Plug 4 power adapters into remaining outlets on bottom row of power strip
- ② Plug 5 power adapters into top row of outlets on power strip
- ③ Run cables to front of tray, leaving excess cable hanging out

You will need: (Not to Scale)

10 Port USB Hub  
x1Power Adapter  
x1

## Setup USB Hub

- 1 Wind excess USB Hub power cable around Power Adapter

- 2 Place USB Hub and Power Adapter into Power Tray

- 3 Route power cable around hook and out through back of Power Tray

- 4 Connect USB Hub to power adapter

## Plug in USB cables

### 1 Plug USB cables into USB Hub

### 2 Run USB cables to front of tray, leaving excess cable hanging out

## Position Power Tray for Cable Management

- 1 Feed Power Strip power cable through hole in back of tub

- 2 Partially slide Power Tray into tub (leave a gap as shown below)

**Feed first cable through opening between tubs and pull it up to top shelf**

★ The process is the same for USB cables

## Feed first cable into cable management clip on top shelf

★ The process is the same for USB cables

### 1 Push cable through first green clip

### 2 Push cable through second green clip

Continue inserting cable into first cable management clip on all remaining shelves

★ The process is the same for USB cables

1 Push cable through first green clip

2 Push cable to back of opening

★ Tuck excess cable into front area of power tray

**Repeat Step 13A-13C for each shelf until all remaining cables are clipped into shelves (as shown)**

## Slide Power Tray into tub

## ★ Pull power cable while inserting Power Tray

## Insert devices into Tech Tub<sup>2</sup>®

★ Push devices in completely to ensure cables don't interfere with door

★ Device Positioning Rails are removable if you require more space for larger devices. To remove, push on the top edge and rotate up out of holes in shelf. If you wish to discard Device Positioning Rails please recycle them.

## Plug device power cable into each device

## Plug in Tech Tub<sup>2</sup>® and turn on power switch

- 1 Plug Power Cable into wall outlet
- 2 Turn on Power Strip via access hole on front of tray

OR

- 1 Plug USB Hub Power Cable into wall outlet
- 2 Slide Power Tray out and slide USB Hub power switch into on position
- 3 Slide Power Tray back into tub

**Wrap Power Strip or USB Hub power cable around cable hooks when moving Tech Tub2®**

# Locking Tubs Together

## Lock a 6 Device Tub to a 6 Device Tub or a 10 Device Tub

- 1 Flip up Locking Tab and Open side Flip Locks on lower tub

- 2 Insert back feet of upper tub into slot on top of lower tub
- 3 Insert front feet of upper tub into holes on top of lower tub
- 4 Connect upper and lower tub using side Flip Locks

- 5 Open the front door of upper tub and slide locking pin through metal tab

- 6 Close and lock front door of Tech Tub<sup>2</sup> to secure devices

# Surface Mounting Tech Tub<sup>2</sup><sup>®</sup>

## Lock Tub to surface using Locking Pin

**!** First, install surface mounting hardware using attached template(stapled to end of this guide) then complete steps below to secure your Tech Tub<sup>2</sup> onto surface

**1** Slide rear feet of Tech Tub<sup>2</sup><sup>®</sup> onto the pins

**2** Fit slot (front underside of tub) over metal tab

**3** Open the front door and slide locking pin through metal tab

**4** Close and lock front door of Tech Tub<sup>2</sup> to secure devices
