Dear Educator,

Thank you for purchasing our Portable Sink. We hope it meets all your expectations and you and your students enjoy using it in your school.

If you have any questions, concerns or ideas on how we can improve please let us know by contacting our Customer Solutions Ninjas at 1-800-267-8494 or info@copernicused.com.

Happy teaching,

Kaylyn Belcourt
President

We do not inherit the earth from our ancestors, we borrow it from our children.

Change is the end result of all true learning.

What you leave behind is not what is engraved in stone monuments, but what is woven into the lives of others.

Education is the most powerful weapon which you can use to change the world.

First Hand Wash Using Foot Pump

- 1 Step on foot pump to dispense water
- 2 The first time pump is used, it will have to be primed, so it will require around 8-10 steps before water comes out

Unit provides between 50-60 hand washes when full

We recommend 6 pumps per hand washing

5.1

Draining Waste Water

Remove Rear Panel, Pull Out Drain Tube & Empty Container

! Dispose of water
according to local laws

5.2

Draining Waste Water

Put Container Back, Insert Drain Tube & Reattach Rear Panel

Daily

- Empty & rinse waste water tank
- Check fresh water level
- Wipe down & dry all surfaces
- Mop up any spills around sink

Biweekly

- Clean tanks and lines using Steramine® (available on Amazon, Walmart) or a similar product
- For more information on Steramine® visit www.sanitize.com/products
- Never use bleach to clean sink! It may stain the sink surface and corrode the plumbing inside the unit

Storage

- Never store outside
- Drain all water and clean all surfaces before storing

CDC - Handwashing Training & Education

For additional information and resources on handwashing visit the CDC website below:

www.cdc.gov/handwashing/training-education.html

Issue	Reason	Solution
No water flow when stepping on foot pump	Fresh water supply line might be disconnected	Reconnect supply line
	Fresh water tank might be empty	Fill fresh water tank
Water leaking under foot pedal	Ring clamp around rubber housing is loose (see Fig. 1 below)	Tighten ring clamp, clean up any spilled water
Faucet base leaking water	Faucet nut might be loose	Tighten nut at base of faucet
Water leaking under sink	Drain hose might not be inserted into waste water tank	Insert drain hose into waste water tank
	Waste water might be full	Empty waste water according to local laws
There is mold or mildew in tanks or lines	Tanks or lines not cleaned every 2 weeks	Use Steramine® or similar product to clean tanks and lines
