Dear Educator,

Thank you for purchasing the Small Robotics Storage Tub. We hope it meets all your expectations and you and your students enjoy using it at your school.

If you have any questions, concerns or ideas on how we can improve please let us know by contacting our Customer Solutions Ninjas at 1-800-267-8494 or [info@copernicused.com](mailto:info@copernicused.com).

Happy teaching,

Kaylyn Belcourt-McCabe  
 President

We do not inherit the  
 earth from our ancestors,  
 we borrow it from our  
 children.

Change is the end result  
 of all true learning.

LEO BUSCAGLIA

# Warning! Hazard Risks!

Please read the warnings below for important safety information regarding your product. Failure to read these warnings or to follow the instructions below could result in personal injury or damage to your product that could void your warranty.

Small  
Parts

In its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

Adult  
Supervision

This product is to be used under the supervision of an adult.

Indoor Use  
Only

This product is intended for indoor use only. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. The internal components are not sealed from the environment.

Power Strip  
Specifications

Read your power strip electrical specifications. Only plug in devices that are approved for use with this power strip. Connect the supplied power strip directly to a wall outlet. **Do not connect to another power strip or use an extension cord.** Unplug when not in use. **Do not leave this product plugged in for more than 72 consecutive hours.** Turn off power strip before unplugging.

Electronic  
Equipment

Read the electrical specifications of any electronic equipment you are using with your Copernicus products. Failure to read these specifications and follow their instructions could result in damage to your equipment or personal injury.

Cable Trip  
Hazard

Ensure that any cables extending across the floor to your product are properly bundled and marked to avoid tripping or falling which may lead to personal injury.

Electrical Shock

Do not install or use the electrical components of this unit during a lightning storm.

Climb Hazard

Do not climb on, hang from or suspend objects from any components of your product unless otherwise specified.

**Before beginning, you should have:**

# Tips for Assembly

## Watch for These Helpful Symbols

This symbol denotes a 2 Person Task. For safety, please ensure that there are the suggested number of people working on steps displaying this symbol.

Watch for this symbol throughout the Assembly Guide. Wherever you see it, pay close attention. The symbol denotes a step needing extra attention to ensure it is done correctly.

The star symbol highlights an advisory note.

## Before You Begin

- Lay out and identify all of the included parts.
- The hardware has been packed according to step.
- Read the assembly guide over once to familiarize yourself with them.

**!** Please note that in its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

## As You Assemble the Unit

- Follow the steps in sequence.
- Before beginning each step, find the part(s) that you need for that step.
- Pay attention to the labels on the parts; they are there to help direct you at certain stages.
- The title of each step states what you will be doing. Review the text and the pictures as you build the unit.

# Customer Service - FAQ's ??

### For missing parts and other issues regarding this product:

1

Actual Size:

You will need: (Not to Scale)

## Install Cable Hooks

2

You will need: (Not to Scale)

Stick On Hook & Loop (Hook Side) 2x

## Apply one strip of Hook & Loop to each USB Hub

3

Actual Size:

(C) M6 x 15mm Barrel Nut  
4x

(D) M6 x 12mm Screw  
4x

(E) M6 Lock Washer  
4x

You will need: (Not to Scale)

Tray  
1x

Allen Key  
2x

## Install Tray Floorboard fasteners

- 1 Measure robot height to determine Floorboard position

**! ALWAYS USE LARGEST ROBOT YOU HAVE TO DETERMINE FLOORBOARD HEIGHT**

**MAX ROBOT HEIGHT**  
**6-3/8"**  
**(16.2 cm)**

- 2 Select the correct position based on the size of your robots

- 3 Fasten the hardware in the selected position using Allen Keys

This assembly guide shows two options for setting up your RS100.  
Choose the best option based on the size and quantity of your robots.

### **Option 1 - All robots in Tray**

(Can accommodate up to 12 small or medium robots)

**FOLLOW STEP 4-6**

(Shown with 12 Sphero Sparks in Tray)

### **Option 2 - Robots in Tray and Tub**

(Can accommodate up to 6 medium or large robots in the Tray and in the Tub)

**FOLLOW STEP 7-10**

(Shown with 2 Dash and 2 Dot in Tray  
and 2 Dash and 2 Dot in bottom of Tub)

## 4 Option 1

You will need: (Not to Scale)

6 Port USB Hub

2x

### Install USB Hubs into Tray

- 1 Plug in up to 6 USB cables for robots into each USB Hub
- 2 Secure USB Hubs to Hook and Loop strips in bottom of Tray
- 3 Feed power cables through hole in Tray

12 USB Cables are shown below however you may require less depending on how many robots you can fit in the Tray.

You will need: (Not to Scale)

Tray Floorboard  
1xHook & Loop Straps  
2x

## Install Floorboard

- 1 Bundle USB cables with Hook and Loop Straps, leaving approx. 9" of cable free
- 2 Feed USB cables through grommets in Tray Floorboard
- 3 Place Tray Floorboard into Tray and rest on Barrel Nuts

## Option 1

## Install Tray and Robots into Tub

- 1 Feed USB Hub power cables into Tub then out through hole on back of Tub

- 2 Place Tray into Tub

- 3 Place up to 12 robots in Tray and plug in USB cables

**! Jump to step 11 to finish Option 1 setup**

You will need: (Not to Scale)

6 Port USB Hub

1x

## Install 1 USB Hub into Tray

- 1 Plug in up to 6 USB cables for robots into USB Hub
- 2 Secure USB Hub to Hook and Loop strip in bottom of Tray
- 3 Feed power cable through hole in Tray

6 USB Cables are shown below however you may require less depending on how many robots you can fit in the Tray.

You will need: (Not to Scale)

Tray Floorboard  
1x

Hook & Loop Straps  
1x

## Install Floorboard

- 1 Bundle USB cables with Hook and Loop Straps, leaving approx. 9" of cable free
- 2 Feed USB cables through grommets in Tray Floorboard
- 3 Place Tray Floorboard into Tray and rest on Barrel Nuts

You will need: (Not to Scale)

6 Port USB Hub

1x

Hook & Loop Straps

1x

## Install 1 USB Hub into Tub

- 1 Plug in USB cables for robots into USB Hub
- 2 Bundle USB cables with Hook and Loop Straps, leaving 9" of cable free
- 3 Secure USB Hub to Hook and Loop strip in bottom of Tub
- 4 Feed USB Hub power cable out through hole on back of Tub

THIS LINE IS 9" (22.9cm) LONG  
USE IT TO MEASURE  
OUT YOUR CABLES

6 USB Cables are shown below however you may require less depending on how many robots you can fit in the Tray.

## Option 2

**Install Tray and Robots into Tub**

- 1 Place up to 6 robots in bottom of Tub and plug in USB cables

(2 Dash and 2 Dot shown in bottom of Tub)

- 2 Feed second USB Hub power cable out through Hole on back of tub, place Tray in Tub

- 3 Place up to 6 robots in Tray and plug in USB cables

(2 Dash and 2 Dot shown in Tray)

# Tips for Use

**Plug both power cables into wall outlets to ensure all robots are charging**

**Wind USB Hub power cables around cable hooks before moving Tub**

**Close Tub Lid and feed padlock through locking tab. Lock using provided keys**

# Tips for Use

## Device Management

Keeping track of your robots can be made even easier by creating a sign-out program.

There are many automated software solutions available that make setting up and running a device check-out program very easy.

Here is a list of some companies and their products:

*ResourceMate®* - [www.resourcemate.com](http://www.resourcemate.com)

*Neuton Data Systems* - [www.neuton.net](http://www.neuton.net)

*IntelliScanner* - [www.intelliscanner.com](http://www.intelliscanner.com)

Use a barcode and scanner for identifying your devices.

**Does your school already use an automated system to keep track of books?  
You could use this system to also keep track of your devices!**

## Carrying your Robotics Tub

**Use the Handles along the sides of the Tub for easy lifting and carrying.**
