NEW!

Mobile solutions for in-class
and online teaching

Spend less time setting up your tech and more time doing what you love—teaching!

Use of technology in the classroom is on the rise, but some classroom furniture does not support it well. Tech setups can be time-consuming to set up each day or move around and that inflexibility can be limiting. Having everything in one place, connected and ready go, saves time, but mobility also is an important consideration for flexible learning spaces.

The new Mobile Tech Station can be customized with components that support the technology a teacher uses and their preferred ergonomics; essentially replacing a traditional desk.

Convenient & Mobile

Save time by setting up all the technology needed to teach in-class and online students *once*. This makes it easy to just unplug the cart to move the station anywhere needed in a classroom or school.

Multi-purpose

Use as a teacher's desk or podium, for travelling teachers and for students to use in media centers with all the tech hooked up.

Flexible

Supports teaching students remotely or in-person and it can be customized with optional add-ons to suit grade level, subject and the tech being used by teachers or students.

NEW Mobile Tech Station Premium model (MTS1)

Features:

- Durable metal frame (24" D x 36" W)
- Dewey the Document Camera Mount that holds tablets or smartphones
- Height-adjustable laptop tray (holds up to a 17" laptop)
- Ring light with three color modes and brightness adjustment
- Portable Pack and Go Whiteboard Easel on the back
- Height-adjustable for sitting or standing upon assembly (desktop can be set 30"-40" from the floor)
- 1 Really Big Tub
- 1 Tiny Tub
- 1 Stubby Tubby pull-out drawer
- Power strip with 8ft cord and surge protection
- 3" casters, two locking

Dimensions

57 ½" - 69 ½" H (lowest to highest position)
x 58 ¼" W x 28 ½" D
Desktop measures: 24" D x 36" W

Warranty

Lifetime on cart components
1 year warranty on ring light
5 year warranty on whiteboards

Mobile Tech Station Premium Model shown with optional Frontrow Juno speaker mount (in standing position)

An educator's perspective:

"The Mobile Tech Station has become my happy place during this crazy time. It has everything I need to deliver my high tech instruction for my remote learners, create demos/tutorials, and juggle the needs of a hybrid classroom. I also have plans to use it as a stop-motion animation station, portfolio uploading center, and a green screen photo booth in my classroom."

Tricia Fuglestad, K-5 art teacher, Arlington Heights, IL

BEFORE

AFTER

Why a ring light matters:

Proper lighting makes all the difference with online recording or streaming and helps the teacher look more like they do in real life.

NEW Mobile Tech Station Base model (MTS2)

This base model is an affordable option with the features needed for recording lessons or hybrid teaching with students in-class and learning online. It includes a document camera mount, ring light and power strip and can be customized with many different add-ons (see below).

Features:

Same feature as the premium model but without the laptop tray, whiteboard and storage options.

Dewey Doc Cam positioned to show the desktop

Additional uses:

- A teacher desk or podium
- For travelling teachers
- For students' use in media centers

Customize the station with these optional add-ons to suit grade level, subject or tech being used

Laptop tray (MTS-LP)

Holds up to a 17" laptop and is height adjustable. Add to one or both sides of the station.

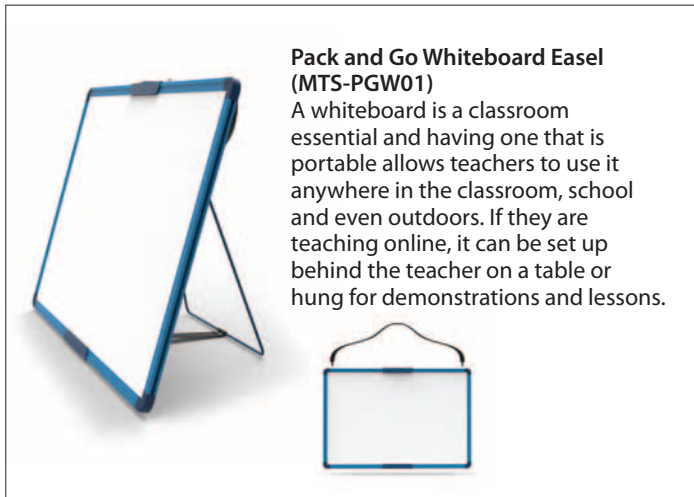

Stubby Tubby Pull-out Drawer (MTS-STB)

A handy spot to store small items to help keep the desktop clear for demonstrations.

FrontRow Juno Speaker Mount (MTS-SPK)

Improve the sound quality of recordings and projection within the classroom (speaker sold separately).

Pack and Go Whiteboard Easel (MTS-PGW01)

A whiteboard is a classroom essential and having one that is portable allows teachers to use it anywhere in the classroom, school and even outdoors. If they are teaching online, it can be set up behind the teacher on a table or hung for demonstrations and lessons.

Really Big Tub Kit (MTS-RBT)

Primary teachers can store larger props and books to keep them within reach.

NEW! Dewey Video Recording and Doc Cam Stand with Ring Light (DCS7)

Recording lessons, demonstrations or connecting with students learning online can be possible (and affordable) with just the basics, like the new Dewey with the addition of a ring light. Students can also use this stand to broadcast daily announcements and other recordings. With a built-in ring light right on the stand, recordings can be properly illuminated.

Dewey's device holder accommodates tablets and smartphones and swivels to record the teacher or the desktop for showing hands-on demonstrations.

Features:

- Ring light with three color modes and brightness adjustment
- Spring loaded clamp holds all versions of iPads® with a camera and various smartphones with or without cases (excludes 12.9 inch iPad Pro)
- Height-adjustable
- 90° rotating mount that swivels and tilts while keeping the device secure
- Mounting holes on the base for securing Dewey to a surface
- Connect a USB mic to the device to enhance the audio recording

Dimensions

30" - 36" H (lowest to highest position) x 10 ¾" W x 12" D

Warranty

Lifetime on Dewey frame

1 year warranty on ring light

Also available:

Dewey the Document Camera Stand (DCS5)

The sturdy stand sets up quickly and you can simply use the camera app on the devices your school already has, including tablets and smartphones. The hands-free device holder pivots to record the presenter or the desktop for showing demonstrations.

Dewey is also helpful to teachers if they suddenly have to teach remotely and with hybrid models.

Spring loaded clamp also holds smartphones

Small webcams can be attached to the ring light (4" W x 1" H)

Dewey the Document Camera Stand with microscope and light (DCS6)

With the addition of a microscope, Dewey enables students to get up-close and explore their studies. Microscope feature has 5x or 10x magnification and LED light.
