Black iRover2<sup>®</sup> for Interactive Flat Panels (IFP500-BLACK)

iRover2<sup>®</sup> for Interactive Flat Panels without handles (IFP501)

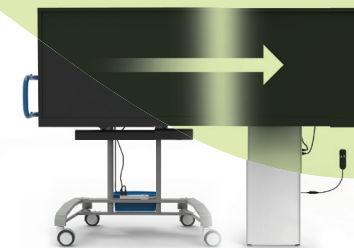

iRover2<sup>®</sup> for Interactive Flat Panels Base Model (IFP550)

A Height Adjustable  
Wall Mount Alternative

Saves floor space and accommodates students with diverse physical needs.

Convert your Cart  
into a Wall Mount!

Our conversion kit allows an interactive flat panel to be converted from the iRover2<sup>®</sup> into a wall mount.

" We have been extremely satisfied with the quality of the iRover2 and the amazing support we have received from Copernicus. iRover2's are in use in classrooms on a daily basis and have withstood the rigors of student use... it has become the only stand schools were allowed to purchase for their SMART Boards.

The reaction from teachers has been very positive and they love the motorized lift!

Brian Wiegand, Technology Support Supervisor, Milwaukee Public Schools, WI

iRover is a great fit for educators.

A flat panel purchase is a big investment. Be sure to protect it with a cart that provides flexibility and durability – not all flat panel carts are created equal!
