

**Put enough gel on your hand to cover the surface**

---

**Rub hands together for**

**20**

**seconds until the gel is dry**

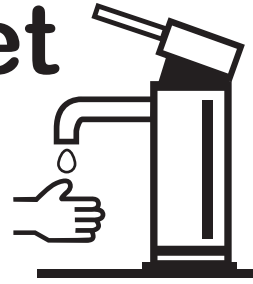

**Note: Do not rinse or wipe off the hand sanitizer before it's dry; it may not work as well against germs.**

# Wash your hands!

Hands that look clean can still have icky germs!

Wet

Use soap

Scrub hands for at least 20 seconds

Rinse

Dry
